claiming less than I had a right to claim because the original claims are unduly limited and may not provide an adequate scope of protection. For example, the current claims of U.S. Patent No. 5,914,575 did not recite methods corresponding to the combinations of claims 1, 6, 7, and 8 and claims 1, 15, 16, and 17, that is, in the patented method claims I did not claim detecting the charging state of the storage battery means and control of the engine, first motor, and second motor was based on the detected charging state as specifically found in claim 7 and claim 16 respectively.

7. Every error in the patent which was corrected in the present reissue application, and is not covered by the prior Declaration submitted in this application, arose without any deceptive intent on my part.

8. I hereby revoke all prior powers of attorney and appoint the following as my attorneys of record with full power of substitution and revocation to prosecute this application and to transact all business in the Patent Office:
